

Did you know that the majority of young people not in school are Neurodivergent?

Feeling different from your peers can be very difficult.

That feeling of not belonging or fitting in.

Do you remember that as a child or maybe you still feel it now?

But guess what, if everyone was the same, how boring would the world be?

We all have our own ways of doing things and everyone has strengths (even though you may not feel it right now)

You have superpowers, you just need to find them 💕💕

Don't worry if you feel different

You are wonderful

You are amazing

You have superpowers

You are you and NEVER be ashamed of that

The world would be incredibly boring if everything and everyone is the same

Be kind to yourself and celebrate who you are 💕💕
